

Homework 1

Introduction (50 points)

Due Date: Monday Sep 6 25 at 11:59 pm

Instruction:

- Please type in your answers in the word document and submit it online.
- Please do not submit PDF files or image formats! the TAs are going to give you feedback in your word document.
- This HW is an individual assignment but the future ones are all group work.
- Late homework assignments will not be accepted under any circumstances.

Question 1 What is your major/minor(s)? Are you a graduate student or an undergrad?

Question 2 Are you familiar with Python programming? What other programming languages have you worked with? Are you comfortable with "coding" in general?

Question 3 Is there any specific person in the class that you want to be in the same group with?

Question 4 What is your biggest concern about the course?

Of course, there is no right or wrong answer to these question. If you are not working on any projects, or you don't know anyone from the class, that's totally fine. Just let me know!
